WASHINGTON, June 15 .- Atty.-Gen loody today gave out the following atement regarding the retirement statement regarding the retirement of Messrs. Harmon and Judson from fur-ther employment in the matter of the rebutes found by the Interstate Com-

rebates found by the Interstate Commerce Commission to have been given by the Atchison, Topeka and Santa Fé Raiiway Company to the Colorado Fuel and Iron Company:

"There seems to be no good reason why the exact point of difference between Messrs. Harmon and Judsen and myself which led to their retirement from the case should not be made public, and a complete statement will be made. I wrote Harmon some days ago suggesting that if a statement of that difference should be made, it ought to be one upon which we agreed, and asking his views as to how the statement should be submitted. This morning I received a telegram from Mr. Harmon saying that my letter had been received, and that he was now arranging it. Before making any further statement, I shall await Mr. Harmon's answer."

WASHINGTON, June 15 .- Amer ica's national capital has been selected as the seat of negotiations between the plenipotentiaries of Russia and Japan for a treaty of peace. The choice of Washington as the location for the peace conference marks another step forward in the negotiations toward ultimate peace in the movement in-stituted by President Roosevelt. Official announcement of the selec-tion of Washington was made by Sec-

retary Loeb at the White House at 1:23 pm, today. It was in typewrit-ten form and reads as follows: When the two governments were unable to agree upon either Chefor or Paris, the President suggested The Hague, but both governments have now requested that Washington be

chosen as the place of meeting and

the President has accordingly formally notified both governments that Washington will be selected." This statement was supplemente shortly afterward by a semi-official announcement that "after meeting and organizing, the plenipotentiaries of the two governments, it it should be found to be uncomfortably hot in Washington, may adjourn the meeting to some summer resort in the North and there continue their sit-

After the acceptance by Russia and Japan of the President's proposition that they consent to consider the question of peace, Russia indicated Paris as the most desirable place for the meeting to negotiate a treaty and Japan indicated Chefoo. There the subject rested for forty-eight hours.

Finally Japan declined to consider Paris for obvious reasons and Russia objected to holding the conference in any oriental city. Washington then suggested as a place at which the belligerents could meet on com-mon ground, undisturbed by either political or personal influences.

As a means of facilitating the negotiations, the President suggested that the conference be held at The Hague, the seat of the international artitration court, and the location of the first general arbitration conference, called at the instance of Emperor Nicholas of Russia. cated that for both practical and senimental ressons The Hague would be a most desirable place of meeting for the plenipotentiaries.

Ought we to throw away the advantages which we have by reason of China's natural friendunjustly severe law and thus create in the Chinese mind a disposition to boycott American trade and to drive our merchants from Chinese shores simply because we are afraid that we may for the time lose the approval of certa unreasonable and extremely popular leaders of California and other Coast States? Does the question not answer itself? Is it not the duty of members of Congress and of the Executive to disregard the unreasonable demands of a portion of the community deeply prejudiced upon this subject in the Par West, and insist on extending justice and courtesy to a people from whom we are deriving and are likely to derive such immense benefit in the way of international trade?"

GRAND DUKE ALEXIS GIVES UP HIS JOB.

With Admiral Avellan, He Steps Down from Place in Russia's Navy Department as Result of "Savage Cririticism."

IBY THE ASSOCIATED PRESS-P.M.

T. PETERSBURG. June 16, 2:20 a. m.—[By Atlantic Cable.] The sensational announcement was made shortly before midnight that Grand Duke Alexis, the High Admiral, who is an uncle of the Emperor, and Admiralty Department, had resigned. This announcement was followed a few minutes later by an imperial rescript relieving the Grand Duke of the supreme direction of the navy, which he has beid since the days of the Emperor's father Alexander III, when Russia resolved to enter the lists as a first class sea power and to build up a great mavy, the last of which was destroyed in the battle of the Sea of Japan.

Although from time to time since the war began there have been rumors that the Grand Duke would retire on account of the savage criticisms, not to use harsher terms, directed against the administration of the navy, especially in the construction of ships, the announcement of his resignation came like a bolt from the blue. It was noted, did not wear the imperial resolver.

Avellan, head of the Russian Admiralty Department, had resigned. This announcement was followed a few minutes later by an imperial rescript relieving the Grand Duke of the supreme direction of the navy, which he has held since the days of the Emperor's father Alexander III, when Russia resolved to enter the lists as a first-class sea power and to build up a great navy, the last of which was destroyed in the battle of the Sea of Japan.

Although from time to time since the war began there have been rumors that the Grand Duke would retire on account of the savage criticisms, not to use harsher terms, directed against the administration of the navy, especially in the construction of ships, the announcement of his resignation came like a boit from the blue. It was not preceded by any of the rumors which usually give warning of such an act. Consequently it was assumed that some sudden event precipitated it, and stories immediately came to the surface. Among those sojourning late in the Cafes and hotels, the editorial in the Nassa Shish yesterday, demanding an accounting of the popular funds subscribed for the rebuilding of the navy and declaring that 'great names are no longer guarantees," was instantly recalled.

The words of the rescript give no hint of imperial anger, and the real explanation probably will not leak out for several days, but the instant disposition was to regard the retirement of Grand Duke Alexis and Admiral Aveilan as a concession to public opinion, following the crowning tragedy of the Sea of Japan.

Charges of mismanagement and tales of corruption and even worse against the marine department have been rife for years. After the war began they increased tenfold, and lately a regular campaign against the department have been rife for years. The retirement of Admiral Avellan has not yet been published. The names of Vice-Admiral Birlioff, who is returning from Vladivostok, where he went to take charge of Rojestvensky's fleet, and of Vice-Admiral Chouknin, commander of the Black Sea fleet, are mentioned among those likely to succeed Admiral Avellan.

The Emperor has accepted the resignation of Grand Duke Alexis, in the following rescript:

Throughout the morning, a procession of royal trains proceeded from London to Windsor, carrying representatives of most of the royal families of Europe, forming ane of the most imposing gatherings since the King's coronation. Magnificent summer weather greeted the young couple and showed the tone of Windsor at its best.

A possible indication that something in the nature of an understanding exists developed today when W. H. Rend, a team owner, said he would deliver goods to the atrike-bound houses with non-union hen and that his union drivers would neither strike nor be locked out.

Chairman John V. Farewell, Jr., of the Employers' Association, declined to consider a tentative atrike-settlement proposition presented to him today by the State Board of Arbitration. The employers would agree to use all honorable influence to have police and deputy sheriffs and all armed guards withdrawn immediately the strike would be declared off, even as to the express companies, and that orders to delives, anywhere would be obeyed by the teamsters. The offer had the approval of President Shea and the martional executive board of the teamsters.

ARCHITECTS FAIL TO AGREE.

(BY DIRECT WIRE TO THE TIMES.)

SACRAMENTO, June 15.—(Exclusive Dispatch.) The first steps are being taken for the improvement of the State capitol building, in accordance with the appropriation of \$352,000 made by the Legislature last winter.

A hitch had occurred because architects of San Francisco, Sacramento, and other cities declined to enter into competition for plans under the old method, by which only the winner of the contract got any substantial reward. H. A. Schulz of San Francisco, president of the State Board of Architects, is here to arrange a basis satisfactory to architects on which competitive plans may be submitted and it is believed that the matter will be amicably adjusted and plans may be received from architects in all posters.

Lagoon is a pretty resort, eighteen miles out of Salt Lake, owned by the Hon. Simon Bamberger, State Senstor, whose handsome country home is close by. On the occasion of this outing the Californians were his guests. Dinner was announced in the dancing pavilion almost immediately after their arrival. At the festal board Secretary Fisher Harris of the Salt Lake Commercial Club acted as toasimaster. He called on W. H. Booth of Los Angeles as the first speaker. Mr. Booth, adverting to the departure of a number of Angelenos for home, explained that they had come with the idea that three days of entertainment were all they should expect, and so had not arranged to be feted for the whole of a week. "But we of Southern California, who have been wont to consider outselves a distinctly hospitable people, have learned something about the art of entertainment since coming here," he said.

CARBONIC COMPLIMENTS.

A bottle of carbonic compliments was uncorked unexpectedly at the feast by ex-Judge C. C. Goodwin of Salt Lake, well known throughout the West as an old-time compatriot of Mark Twain, Bret Harte and other celebrities of bygone literary days. Mr. Goodwin had it in for Mayor Giasmann of Ogden, and he let it out by characterizing that absent official as follows:

"He is a curiosity. I hope you all will see him tomorrow when you are in Ogden. He is principally mouth. It is a surprise to every one that so big a mouth should be attached to so small a head. And his teart is as big as his head."

Three Small Boys Drown.

SACRAMENTO. June 15.—Three 10-year old boys—Thomas R. O'Connor. Pasquale Albanoza and Pasquale Marino-were drowned while trying to swim in a pool of water half a mile from Sacramento at a late hour this afternoon. When they did not get home at 8 o'clock a search was instituted and it was midnight when the bodies of Albanoza and O'Connor were recovered. The search for Marino's body was abandoned for the night.

RUSSIANS WITHDRAWING.

ST. PETERSBURG, June 15.—[Extensive Dispatch.] Telegrams from Manchuria do not confirm reports that Linevitch's army is surrounded, but it is evident that the Russians are withdrawing from their advanced positions on both sides of the railway bridge before the flanking movements of the Japanese. It is feared that they will have to fall back north to Knutu Ling. Absence of official news strengthens this apprehension. At the same time, confidence is expressed at the War Office that Linevitch will be able to hold his own.

Eight of His Biggest Ships Keep up Four Hours' Fire, After Which They Retire—Siren Makes Several Attempts to Cut Cable Connecting

FORT MONROE (Va.) June 15.—The last attack in force on Fort Monroe took place this morning at 7 a.m. Eight of the biggest ships of Admiral Dickens's squadron formed an arc between Capes Henry and Charles. The first gun was fired at 7:10 and for half an hour a long-range bombardment continued. The ships did not come closer than Bug Light, which is ten miles from the fort. The fleet consisted of the Texas and the Hartford, four of the monitors and two smaller ships. The monitor Puritan was recognized in

Potomac, at what is known as the White House, just below the fort.
The monitor Terror and the gunboat Siren have been reported proceeding down the Potomac. It is believed that the whole fleet will demonstrate against Fort Monroe tonight.

The gunboat Hornet landed at Old Point Comfort shortly after noon to-day and Lieut. Hussey at once proceeded to the headquarters of Gen. Wade bearing papers from Admiral Dickens. It was announced that the landing, which was made under the flag of truce, had to do entirely with the death of Midshipman Louis L. Vertreez, who was drowned off Annapolis on the 13th inst. The tug Standish will be dispatched to drag for the body.

SAN JUAN HERO KUKLUX VICTIM.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SANTA MONICA, June 15.—Securely bound hand and foot, stark naked, all but unconscious, with a great and suffocating gag in his mouth and a threatening message scrawled upon his chest, Walter L. Vandercook was discovered at 8 o'clock this morning in his bedroom just off the little kodak store at No. 216 Utah avenue. The job was not that of robbers, as nothing was taken.

The work was that of a kuklux clan that is bent upon driving Vandercook tout of the country, if the story as told by him is to be believed—and at this lims there is no good reason for disbelieving his story. Vandercook is a young German, who enlisted at Detroit and saw service with Roosevelt at the memorable charge of San Juan Hill.

In that battle he was seriously wounded, receiving a shot that struck file splinal column and partially paralyzed him. He came to the Soldiers' Home and spent many months a hopeless invalid in a wheel chair. A year ago he was able to walk by the aid of a crutch and, with recovering health, he came to the beach and went into the photograph business, sleeping in the rear of his shop.

Last night he was not feeling well and retired at 10 o'clock. He was restless and tossed considerably. About middight he heard the rear door of his place pushed open and someone entered. He presumed, it was a friend who had called to inquire as to his health. This was about midnight. When Vandercook aroused himself to bid his friend welcome a pistol was placed at his temple and he was commanded under penalty of instant death to swear that he would leave Santa Monica and arrange for a meeting of the manders with some young lady whose name was not mentioned.

There were three men in the visiting of the recident was caused bridge. The was caused bridge, when the would be galad to don't have the province of the mander of the mander with some young lady whose name was not mentioned.

DR. WALKER STATES.

Dr. Walker made a statement in bealf of the board of trustees, in which e set forth the remarkable growth of e college, and declared that it now and an equipment worth fully \$150,000, hereas seven years ago, all that was wined was the lot on which the acadmy stands. "Today we have in Los nogeles alone a membership of Presylverian churches amounting to over 60 communicants, and this gives us a nancetion with fully 20,000 people hose interests are allied with the resbyterians—a clientelle for this hool of great proportions in Los Anders and because of this we excit still greater development for Occimital College."

Dr. W. S. Young, chairman of the discovered for the completion of the proposed \$0,000, which it is desired shall be sted by July 1. He declared that ille the college had expanded so revelously, the demands on the exams fund had also increased from last year to 240 this year. He statel it several additions to the faculty been made: Prof. A. F. Dr. W. S. Young, chairman of the Endowment Fund Committee, made a plea for the completion of the proposed \$200,000, which it is desired shall be closed by July 1. He declared that while the college had expanded so marvelously, the demands on the expense fund had also increased so that the raising of the \$200,000 endowment immediately was imperative.

Dr. Wadsworth announced that the college enrollment had increased from 180 last year to 240 this year. He stated that several additions to the faculty had been made: Prof. A. F. Shaw, for ten years connected with the Presbyterian Mission College at Santa Paul, Brazil, is to teach physics and chemistry: Miss Clara Bailey of Santa Anawill teach Latin in the academy: Miss Amelia Pulkerson of Rogerville, Tenn., is to come to the Occidental faculty as teacher of art; and Prof. S. W. Peterson comes as teacher of mathematics.

At the close of the exercises the visitors inspected the college buildings and the new Stimson Memorial Library. Many ministers from various points of the Los Angeles Presbytery were in attendance, and they were received by the members of the faculty and the board of trustees.

LOSS NOT SO GREAT.

The fire last Saturday at the Big Horn mine on North Baldy proves to have been less disastrous than was at first reported. The 25-horse-power engine was saved as well as much of the other machinery and the foundations were left intact, the fire having burned itself out quickly on the woodwork. The total loss will not exceed \$12,000, aithough it was thought that it would come close to \$20,000 when the first reports came in a It is expected that everything will be repaired within sixty days. About twenty-five men will be put to work.

Ryan, the miner who was burned in the fire, is now on the road to recovery.

What She Endured FAST TRAVEL

The Triple Life Led By a Prominent Teacher.

Strenuous Woman Tells How She Works All the Time and Yet is Able to Keep Up Her Strength.

There are few instances of pluckier womanhood than that of Mrs. Mattle E. Harris, principal of one of the public schools of Council Grove, Kansas, who is widely known in that state as a most successful teacher. Most women would give up in utter discouragement if they had to face difficulties of the sort she is meeting and surmounting daily. She goes unflinchingly ahead, uses up her strength every day and yet always gets a fresh supply in time for the morrow's need. How she manages to do so much without wearing out is a secret worth knowing.

out wearing out is a secret worth knowing.

"Tell me your story, Mrs. Harris," said a reporter to her recently. "It will be most helpful to multitudes of overworked women."

"Well," said Mrs. Harris, "I have suffered a great deal from heart trouble and from extreme nervous tension, living daily on the verge of constant collapse. I am well acquainted with the strain of overwork. For more than fifteen years circumstances have made it necessary for me to improve every opportunity to increase my income and have left me very little time for rest. I have filled three spheres of labor—that of principal of a school during five days of the week, that of assistant in a busy store on

IBY DIRECT WIRE TO THE TIMES. CHICAGO, June 15 .- (Exclusive Dis-CHICAGO, June 15.—(Exclusive Dispatch.) The eighteen-hour trains of the Lake Shore and Pennsylvania railroads between New York and Chicago have opened up new possibilities in the way of transcontinental travel. With changes just announced by the Rock Island system; it will be possible to travel from New York to Colorado common points and be only two nights on the road.

For more than fifteen years circumstances have made it necessary for me to improve every opportunity to increase my income and have left me very little time for rest. I have filled three spheres of labor—that of principal of a school during five days of the week, that of assistant in a busy store on the busiest day of the week, Saturday, and that of caretaker of home and children all the time.

and children all the time.

"In 1900-1 I had a great deal of diziness, accompanied by a sense of suffocation and shortness of breath, I was very nervous, particularly in my eyes, and I could not sleep. One of my lady friends was thoroughly alarmed about my condition and said I looked as if I was going to die. By the advice of a friend in Wilsey, who had used Dr. Williams' Pink Pills with beneficial results, I began to take them when my condition was most serious.

"The first box relieved me and six or seven effected a cure. They checked the palpitation and banished the dizziness, the twitching of the eyes and the nervous sensation in general. I am able now to sleep like a log and am doing my threefold work with perfect regularity, Dr. Williams' Pink Pills are all right and I do not hesitate to commend them."

These are strong words supported by corresponding facts. Mrs. Harris can be found in the school, or the store, or the home, a woman of quick intelligence and stirring activity, serving her family and the community in a manner that shows how much benefit she has received from this wonderful blood and nerve tonic.

Dr. Williams' Pink Pills can be taken for any length of time with absolute safety, as they do not contain a single grain of any harmful ingredient. They create no drug habit. COL. KERENS COMES, WILL WAR FOLLOW?

No the appearance of R. C. Kerens of St. Louis, mining man, politician and railroad director, there seems to be indications of a gathering of the heads and owners of the Sait Lake road toward the beginning of next week. It is expected that Senator Clark, president of the road, will be here by that time. While nothing has been given out as to the object-of this gathering, it is strongly suspected that the result will be a railroad war on E. H. Harriman to wreat the control of the Sait Lake route away from the Southern Pacific magnate or at least obtain a square deal for the youngster among transcontinental roads, which it claims it hasn't had.

Wars and rumors of wars have been hovering around the railroad situation locally for some time. It is beginning to be a sore point with Messrs. Clark, Kerens and Kearns, the men who virtually built the road, to be given the double cross as they assert they are by the head of the Southern Pacific and get nothing for the San Pedro, Los Angeles and Sait Lake Railroad. It is denied switching privileges here, and the Southern Pacific gets in the way of it getting business wherever possible.

to be a sore point with Messrs. Clark, Kereng and Kearns, the men who virtually built the roud, to be given the double cross as they assert they are by the head of the Southern Pacific. At present it is a case of give all and get nothing for the San Pedro, Los Angeles and Salt Lake Raifroad. It is denied switching privileges here, and the Southern Pacific gets in the way of it getting business wherever possible. From the East, reports come of combinations that are banded together to prevent routing by the Salt Lake wherever possible. On the other hand, whenever freight that comes out here is routed by the Salt Lake road and lines that are not in the Harriman combination, the Union Pacific men expect to get the information so as to get the business away if there is time, even if the shippers have been known to go to such lengths as to change the routings. Cases of this kind have been known to occur frequently. As a result, the other lines do not tell the Salt Lake men of any business coming out here until it actually gets to the Salt Lake end. They know that it is not safe to run the chance of having, the business snaked away at the last minute by the Union Pacific.

Col. Kerens was in Los Angeles only for a few hours yesterday. This was his first trip over the road of which he is a director, and he was much pleased with the result of his trip. With him were Mrs. Vincent C. Kerens and family. The party went out to Terminal Island in the afternoon, where Col.

A MAY ADVERTISING RECORD.

The Times printed 475 columns more advertising for the month of May, just past, than for May, 1904. The record for the month was 3653 columns, a volume nearly equaling the aggregate amount printed by any other three Los Angeles newspapers. These figures do not include any public city advertising, which amounted to 316 columns. Other than office announcements, no free advertising was, or is ever printed by this journal. The Times is not given to "frenzied" newspaper faking of from \$48,875,000 to \$100,000,000. Additional stock will be used as follows: Twenty-five million for exchange of income bonds; \$3,000,000 for exchange for equal amount of the Mexican Pacific Rallway, and \$21,125,000 for acquisition of additional properties from time to time, as the directors deem expedient.

time to time, as the directors deem expedient.
This is the first step in the reorganization of the road. Under the bylaws, the capital is now fixed at not to exceed \$32,000 par value of stock per mile, and this increase brings the total capital up to practically this fixed amount, as the road has now over 3154 miles of road which allows a capital of \$101,928,000 par value, one-third.

ESPEE'S SERIES OF TUNNELS.

(BY DIRECT WIRE TO THE TIMES.)
RENO (Nev.) June 15.—(Exclusive Dispatch.) It was officially stated by a prominent official of the Southern Pacific today that the contract for the construction of a series of tunnels through the Sierra Nevada Mountains had been let. The contract was given to Erickson & Co. of Los Angeles and San Francisco, and will call for an expenditure of over \$25,000.

The work will be started within a month, and will be rushed to completion. The work will consist of five tunnels, and the longest will be over five miles in length. The first tunnel will start a short distance from Donner Lake, and the series will end in Blue Cafion on the banks of the American River. It will be impossible to use steam engines in these tunnels on account of smoke, and in their place electric and compressed-air engines will be used.

REATEST RUSH BY TROLLEY.

MORE POWER AND MANY CARS ARE PROVIDED FOR.

Lines Already Taxed to Capacity of Regular Equipment to Handle Summer Passenger Traffic—Los An-geles Street Railway Men to be Addressed by Official Tonight.

The passenger traffic departments of the several electric rallways predict, from present indications, an unprece-dented passenger business over their lines during the opening summer sea-

such a rush over all of the lines that they are taxed almost to the full ca-pacity of their regular equipment to handle it. To be sure, there is always a reserve of cars and motive power in the barns and the power plants, but if the business increases as much more in the weeks to come as it has in the two weeks past, it is more than probable that all of this reserve equipment will have to be called into the regular serv-

that all of this reserve equipment will have to be called into the regular service.

To keep in line at the head of the procession, the Pacific Electric is contemplating ordering a lot of new cars of the Long Beach type at an early date, and for the best possible delivery. The management gives it out that after severe tests and the most careful study of performance, the Long Beach type of car has proven the best to be had for suburban and interurban service.

The Los Angeles-Pacific Railway is increasing its power-plant capacities as well as its rolling equipment. Another installment of the order for forty cars placed some time ago with the St. Louis Car Company has been shipped and the coaches are expected to arrive within a few days.

Within a few days this company will begin the construction of a sixth subpower station of 750-horse-power capacity to help out in the rapidly-increasing business over the Hollywood line. In addition to this, new engines of the compound condensing Corliss type are being installed in the central power station, which when put under steam will bring the horse-power capacity of the central power plant up to 6000, and this is capable of an overload of from 30 to 50 per cent. so that the power plant will be able to respond quickly and with ease to whatever emergency demands may be placed upon it.

CAR MEN'S MEETING.

CAR MEN'S MEETING. Assistant Superintendent Lewis of the Los Angeles Railway Company will address the car men in his em-

will address the car men in his em-ploy tonight at the barns of the com-pany near Ascot Park.

This is simply one of the regular meetings to which car men are called from time to time to meet the assistant superintendent in a body and to be ant superintendent in a body and to be reminded both in a general and spe-cific way of their duty both to the com-pany and to the public.

Mr. Lewis says that these informal talks which he holds with the car men

are for the purpose of impressing upon them more emphatically a realization of the care which the company expects them to exert in guarding against ac-cidents, to remind them that their and cidents, to remind them that their and the company's interests are identical with, and not antagonistic to those of the public, to caution them against losing their patience and forgetting the politicness which they are expected al-ways to show passengers, and to secure generally a better organization and higher morale of all of the car oper-ators. These meetings have no relation to

ators.

These meetings have no relation to any accidents which may happen upon the lines, but it is hoped that they will have the effect of eliminating, as far as human effort can, all accidents and loss to human life through the operation of the cars of the company.

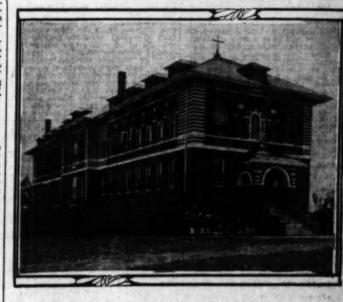

Speaking of fenders in their relation to the saving of life, the management both of the Pacific Electric and of the Los Angeles Railway, regret that human ingenuity has not yet devised a fender, nor do they believe it possible to devise a practicable fender which will save life in every instance. Both companies declare that they have fitted their cars with the best types of fenders that they have been able to secure, and that if it were possible to procure a fender which would save life in every lustance in which it might be called into use, they would be glad even as a matter of good business judgment to adopt it upon their cars.

The offices of General Superintendent Ingram and District Engineer D'Heur of the Southern Pacific have been removed from the Arcade depot and installed in rooms 468 to 472, Pacific Electric building. Although the offices have been transferred, the new quarters are not yet remodeled to meet the requirements of the Southern Pacific, and a force of men is busily engaged putting in partitions, counters, call belis, telephones, and all of the appurtenances calculated to make the offices convenient and pleasant for their occupants. Far out on the very western outskirds of this wide-spreading city—several miles removed from the center where sin's seductive charms abound and where the footsteps of frail young womanhood and budding girthood, alas, stray sometimes from the paths of rectitude—there was opened yesterday a haven of refuge for the erring. In the few short months which the Sisters of the Good Shepherd.

In the few short months which the Sisters of the Good Shepherd have been laboring in Los Angeles they have shown the practicability of their methods of work, and they have found that there is, indeed, a field ripe for the harvest. The new building is an outlay of about \$15,000, and beside this there has been erected a substantial orick building to be used as a laundry, and costing, with equipment, about \$10,000.

The dedication took place yesterday forenoon. Bishop Consty officiated, and twenty priests of the city and vicinity assisted. The procession formed in the chapel, and from thence it made the circuit of the exterior of the building. The walls were sprinkled with holy wa-

The country delegates have demonst valuable prizes. The country delegates have demonst valuable prizes. of some of the best scholarships and the most valuable prizes. The country delegates have demonstrated that the enthusiasm of a limited circle of personal acquaintances may be of more avail than the clever schemes of some of the city contestants. In the country more interest is taken in the individuals than in the city. The Los Antre geles contestants have to ask for nearly all the support they get; and much of the time they have to ask strangers. In the country, when a boy or girl is once in the race the neighbors volunteer coupons and subscriptions. One of the samples of this community support was seen last year at Hynes, Los Angeles county, where Laura Tupman as a successful contestant. By the census of 1964 Hynes had a population of only 1944, and yet Laura Tupman, by the loyalty of her friends and her own intelligence, won a scholarship which enables her to realize her ambitions as to education and occupation.

Limited as was the immediate population shad to look to for support, Miss Tupman had competition very near at home. Bel Skidmore, who came out first in the contest, lived within only five miles of Hynes, and had friends in the interesting.

HER ARCHITECTURAL PLANS WON
HYNES (Cal.) June 12, 1905.

I imes-Mirror Co., Los Angeles, Cal.;
I am glad to see that you are again
offering to ambitious students a chance
for an education. For the boy or girly
wanting to attend some school, but not
having the means, I know of no pleasanter way of accomplishing that end
than by entering the Times Scholarship
Contest. Every one is interested in an
ambitious pupil trying to help himself,
so a Times contestant is well received a
year in the Los Angeles College of Fins
Aris, U.S.C., where I had attended in
1903. Here I took up architectural
drawing, which I have been getting
along with very nicely. This summer
the college will be enlarged. I was so
fortunate as to have the plans I submitted accepted. It is now my intertion to try to enter an architect's office
this fail.
But a year's schooling is not the only
benedit received from my work in the HER ARCHITECTURAL PLANS WON

in this way met many friends and alw got a better insight into business life I highly recommend the contest to an one wishing to gain an education, and hope to see a long line of contestants in 1905. Very truly yours, LYMAN C. WAITE.

tion to try to enter an architect's office this fall.

But a year's schooling is not the only benefit received from my work in the contest. The insight into human nature and business is something that will be a help to me all my life. It shows how others are succeeding and gives the contestant confidence in himself and in his associates. It also shows that without an education one will never be very successful in this work that without an education one will never be very successful in this work in a stimulus to the school work.

In starting in the contest, one at first may got very much discouraged, but as time goes on, and the people get interested, then you begin to meet with success. While canvassing for The Times one never meets with a discourteous contest.

Where's McMullan?

R. E. Wirsching, High Chief Ranger for Southern California of the Independent Order of Foresters, has received a letter from Thomas Boyd of Straid, Belfast, Ireland, requesting information as to the whereabouts of Thomas McMullan, who was engaged in mining in Southern California about twenty-five years ago and who last was heard from three years later, when he visited his home in Ireland. If living, McMullan would be about seventy years old. Foresters Annual.

Anniversary services commemorating the founding of the Independent Order of Foresters are to be held Sunday next at the Congregational Church, Daly street, East Los Angeles. The Programme will include the ritualistic ceremonies of the order, and a discourse by Rev. Frank S. Forbes, pastor of the church. The order was founded in 1874 by Dr. Oronbyatekha, a Mohawk Indian, who is a thirty-third degree Mason and an earnest advocate of fraternal insurance.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate announcements, which in order to be printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays, involves somewhat slower press work, making it essential, in order to get the paper out on time, to stop receiving real estate and at 10 o'clock Saturday nights. Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays. Sunday "Want" ads will still be rectived by phone and over the counter until 11 o'clock Saturday nights.

The ladies' rest room on the top floor of the new wing of The Times' Building is open daily from 9 to 5. Ladies from town or country will find this a convenient place to write, rest or read. "I very much doubt the expediency of the resolution," be said. "If there is any practical breach between the church and the laboring men, I am sure it is not the fault of the church. Every man in my men's league is a laboring man, and three mechanics are ushers at the Pro-Cathedral, and every member of the King's Daughters is a woman who earns her own living. For these things I thank God. There is no breach with the laboring people.

"The labor unions of this country, in the public mind, and in the newspapers, are identified with disorder and misrule; with anarchy and defiance of law. I am not making an arraignment; I am simply stating facts as I see them. I very much doubt the wisdom of the resolution."

Rev. J. D. H. Browne of Santa Monica, while he was inclined to favor the resolution, in the hope that something might result, contested the attitude of the labor union as stated by Mr. Marshall, and said that they misrepresented the attitude of the church.

Rev. W. H. Doggett took up the cudgel in favor of his resolution, agreeing in part with Dean Wilkins. He said:

"There is no doubt that many of the labor organizations stand for disorder and misrule and anarchy, but that is simply to be deplored. It may be particularly so in this section, or it may not: I do not know; but they have come to stay, and must have a square deal, but they've got to behave thermselves."

Several times during the discussion reference was made to the words of Bishop Johnson, during the late diocesan convention, when he suggested that the Epi-copal church was not doing her whole duty, and self-preservation called for greater activity.

"I do not say these things," said the bishop yesterday, "because I think the church is insufficiently equipped or inadequate to the situation. I would not for one minute stay in a church that was organized, or that I thought was organized, for the purpose of ministering to a select few wealthy people. I would get out of it as quick as I could, for I would be sure it was not the church of God."

At the present gait, Whitman and Hamlin ought to roll into San Francisco not long after noon today. From San Joae they will find twelve miles to be able to loaf a little then if necessary.

The strain of driving continuously had not told upon either of the husky chauffeurs up to has hight, being offesset by the excitement and staisfaction of knowing they were accomplishing their task. tic specifications affecting the quality of the oil delivered.
Under the present ordinance all oil used in improving streets is tested by naspectors from the street department. Mr. Blackmar thinks that this regulation opens the way for frauds and impositions, and that the city is the loser. The specifications for street improvement provide that oil of a certain usility shall be accepted, and that all ther shall be rejected," yesterday afternoon explained the Oil Inspector. Now that oil is delivered just as it is piled on the street, the inspector does not find whether it is up to standard util after it has been accepted. The sould be returned of the street, the inspector does not find whether it is up to standard util after it has been accepted. The sould of this is that inferior grades of il are unloaded on the city undetected. In our department we are equipped or making tests almost without number. We can handle as many as 300 tests a day. If the inspection was unter the direction of this department, then we would send a man to the treet where the oil was being delivered, he would be provided with tubes and could take a sample of each load of oil delivered. Those samples would be tested later in the laboratory. If the il contained a certain per cent of water speaker than the specifications along that is impossible under the resent system.

"All wagons used for the delivery of

sure the test of all off delivered; a thing that is impossible under the present system.

"All wagons used for the delivery of oil should be measured, and their capacity stamped upon them. That could be done best through this department. Under the present system the inspector has no way to determine whether the tanks are short measure."

Inspector Blackmar said that some of the tank wagons used for the delivery of oil in Los Angeles are of a peculiar construction, that the back of the tank is lower than the front. The result of this is that when a fifty-barrel tank appears from the rear to be full it may be two or three barrels short in measure. He says that a special inspection and measurement is the only way in which this can be detected.

Mr. Blackmar said that most of these facts regarding the methods used by certain oil producers and commission brokers have come to light durin g the inspection of oil delivered for sprinking the streets. Inspection of Mr. Blackmar and his assistant.

"Most of the oil men are scrupulously honest in their dealings with the city," concluded the Oil Inspector, "but there are a scattering few that ulli hear watching. It is to guard against these few that I have drafted the new ordinance."

Oplum made De Quincy write one of the world's masterpieces: this young dilettante, Walter C. Kellogg, deliberately entered into a terrible vice to see what cocaine would achieve for him in literature.

Up to date, it has got him two or three terms in the insane asylum and several sessions on the chain gang: also brought about his complete ruin. The terrible tragedy of his life was when the manuscript of his "Confessions of a Cocaine Fiend" was coldly turned down by the magazine editors. Kellogg had taken them all in. He admitted it frankly.

When he told his story to Justice Chambere, it was in language—positively in a literary style seldom heard in the Police Court; really a little in the long, smooth, graceful sweep of De Quincy sentences.

The officers said he is a "hop head;" he called himself "an experimenter in the psychic effects of cocaine."

"Primarily," he said to the Judge, "my purpose was scientific; but I will into attempt to deny that both pleasure and fascination has attended those experiments."

He said that he began taking "dope" in 1894. He had always, he said, had a great curiosity to enter into the dreams of his literary god, De Quincy.

That year he had domestic unhappiness—a divorce. He turned naturally to his profession—to his art with his whole soul. He turned to this literary dream—to be a latter-day De Quincy. He began with a friend who had a syringe. As he entered into the dream life, he found that the story was going to be too large for a newspaper story. He kept on and tried to make a magasine sarticle out of it; the editors wouldn't have it. Stories about lovely, young princesses and Ruperts of Hensau were just then the thing.

There is considerable, hore to this story, mostly concerning isils, madhouses and other charming resorts, but there is no need telling it.

THE FEDERAL COURTS. AST ECHO OF FAMOUS CASE.

FINAL DISMISSAL ORDER OF THE BROOKS MATTER.

Formal End of Most Celebrated Suit of Local Federal Courts Ending in Conviction—Water Squabbles Involving Payments and Land Rights Will be Heard.

Papers received yesterday morning by Attorney Valentine from Washing-ton set the final seal on the most cele-brated and bitterly fought case ever tried in the Federal Courts of the Southern District of California-except ing the memorable liberty-struggle of "Tom" Hays. The documents are the last orders of dismissal from the Supreme Court of the United States in the appeal of Charles H. Brooks, St. Louis get-rich-quick man, whose cap

Then he was arrested on an order from 8t. Louis, and a desperate fight for liberty ensued with involved the highest courts in the nation, and extended literally over two countries.

At his first hearing, the United States Commissioners held nim to answer, and he was then sent before Judge Wellborn, in the District Court, for the regular order of removal to Missouri Jurisdiction, where his crime had been committed.

jurisdiction, where his crime had been committed.

Brooks hired Fline and Barker as his attorneys, and began to struggle.

He sued out a writ of habeas corpus, but Judge Ross of the Circuit Court denied it. Then he took the matter to the Supreme Court of the United States, and pending the decision on this matter, he was released on a \$5000 bond. Messrs. Warren Gillelen and R. W. Kenney of the Broadway Bank and Trust Company going his security.

Just here Attorney Valentine received another indictment from St. Louis, and Brooks was again arrested. He was released on a \$3500 bond, Messrs. Gillelen and Kenney again being his sureties.

leien and Kenney again being his sureties.

Then the prosecution's lawyers found a fly in his legal ointment; he had not perfected his appeal to the Supreme Court—in a word, he hadn't paid his docket fees. The local office took it up with the Attorney General of the United States, and this official found a way out of the matter by having it placed at once on the docket, when it was dismissed for the time being.

Then they went to get Brooks, and found him—gone!

When the cases in the East began to pile up against him, without any trace of his whereabouts, the \$2500 was forfeited. Senator "Billy" Mason of Illinois then entered the case, suddenly announcing that he had been retarned as the Brooks' attorney, and could produce the wanted man on demand.

Jeffries. It was figured that the retired champion would be a big boost to the box office receipts, and the club was willing to give him a tidy sum to officiate. But refereeing is not to Jeffries' liking, and as he is not in straitened circumstances, be can afford to decline, which he has done.

When Root and Hart named Jeffries for referee, they were doubtful that he would accept the honor, so they agreed upon Jack Weich as second choice. After all that has been said in the East about "unfairness" of Callfornia referees, it is gratifying to note that Hart and Root, two eastern puglists, have selected a "native son" to arbitrate their dispute. It shows that local referees are not as had as they have been painted by writers who never witnessed a battle on the Coast, and who have grounded their "roasts" on hearmy testimony.

FREE-HITTING GAME. HOUSEHOLDER SPIKES WILSON.

(BY THE ASSOCIATED PRESS-P.M.) SAN FRANCISCO, June 15.—Portland defeated San Francisco in a free-hit-ting game today by a score of 6 to 3. The home team made an auspicious be-ginning with three runs in the first inning on three hits off Essick, but Portland had revenge in the second, when they fell on Whalen for five hits, which scored five runs. Both pitchers which scored five runs. Both pitchers kept their hits pretty well scattered after that. The home team failed to score after the first inning, but Portland made another run in the eighth. Householder, in sliding home in the seventh, spiked Wilson. SOUTH COAST YACHT CLUB'S RUN

Fleets to Start Tomorrow for Santa Barbara Group, and Voyage to Japan Not to be Undertaken at ets at Night.

BY STINSON JARVIS

To advance the general interest of ocean yacht racing and to incidentally encourage similar efforts on the part of the Emperor of Germany, the nobility of England and the chivairy of Europe, the South Coast Yacht Club will no tom-grow send its white-winged fleets to a far distant island of the Pacific in contests of speed in which the fleets to a far distant island of the Pacific in contests of speed in which the winners will be rewarded with silverware and glory. Even the ascetic Jefferson allowed that a Republican has airight to be "a prince of good fellows," and give cups in an imperial way without being considered un-American, and in this case Carlistle Thorpe and Clement Hebier run no risks when they provide the handsome prizes to, be raced for. Although the course will not extend the whole way to Japan, it will nevertheless give the small craft of the Los Angeles yachtsmen about all they want in the way of seaway and ozone.

of the Los angues yearsmen about an they want in the way of seaway and ozone.

With the head wind that may be expected on long course to the outer mark, the smailer boats will probably sail over a hundred miles before they get back to the finish line. As the crow files, the distance to the windward islands is at least forty miles, and some claim that it is over fifty, so there is to be a long sail for the little chaps. A frequent misfortune in races of this kind is that the outer mark drifts away from the place in which it is anchored, but no such accident will occur in the coming contest, because the Regatta Committee here selects a whole island as the outer mark. Santa Barbara Island, although small, has been considered sufficiently a fixture for the purposes of this race and the yachts have to sail round this before returning to the finish line off Terminal Island.

"WE ACCEPT OFFER"

Have Ordered Friedman Shoes Sent to The Mammoth, No. 519 South Broadway."

Guthman, Carpenter & Telling, Chicago's Largest Wholesale Shoe House Wires to M. Jacobs, Their Agent, to Accept the Mammoth's Spot Cash Offeer.

Shoes were Shipped to M. Freidman at Fresno, who was Closed Up by His Creditors. On Sale Saturday.

"It's an ill wind that blows no good." This old saying again comes true. By a Fresno merchant's misfortune the people of Los Angeles will be gainers. No sooner had the telegraph company brought the above news of acceptance and the arrival of the goods, a large force of help were employed to mark and assort the big stock and get it ready for a "big sale," which will commence this Saturday.

This stock was bought for a song and the good people of Los Angeles can carry it away at a fraction of its value. That is the whole story in a nutshell. It is not necessary to go into further details. The Mammoth people never do things by halves. This sale will surpass all previous efforts. The people of Los Angeles have received the benefit of many of the Mammoth's purchases. Among the most important were the F. R. Harris Shoe Co. stock of Pasadena, the Whitker-Brown stock, the Apollas Fuller and recently the Avery stock, which caused such a sensetion. There will be many surprises Saturday. The bargain tables will be loaded with fibes priced at a fraction of their real worth.

A thousand pairs of shoes for men, women and children on sale at 50c a pair.

Another thousand pairs on sale for 75c a pair, still another thousand pairs for 98c a pair, and so on, and every pair is worth several times the price asked.

The entire stock will go on the bargain tables, which will be refilled daily. Come to the big store Saturday walk in the aisles and gaze at the big display, see the little prices and reap the benefit of our big purchase. The Mammoth is located at 519 S. Broadway. Fifteen years of she selling has made this store famous. No other store has outlet for so many goods and can handle such large stocks. Extra salespeople will be on hand. Don't delay. Come carly and often. Sale Saturday at the Mammoth Shee House, No. 519 S. Broadway, between Fifth and Sixth.

treme. A colonel is not merely the commander of a regiment, or a captain merely the head of his company, troop or battery. He is the 'little father' of his men, their guide counselor and friend. There are exceptions to the general rule, of course just as there are exceptions to all rules. But in a very large majority of cases the attitude of the officer is commendable in the extreme. If one of his soldiers wishes to communicate with his fam-ily or friends at home, and can not write, his officer writes the letter for him, and reads to him the one that him, and reads to him the one that comes in response, if the man can not perform that service for himself. If the soldier is in trouble, it is his officer to whom he goes for advice and assistance, and the number of times when he is not properly received and treated is so small as to be almost infinitesimal. If he is grieved by the death of some dear one, or depressed by other bad news from home, it is his officer who, as you Americans would say, braces him up. The army of no country in the world shows a better condition of affairs in this respect than does that of Russia. The officer realizes the responsibility that is his, a responsibility far greater than that which rests upon the officers of armies maintained by countries the soldiers of which, from an educational standpoint, perhaps, show a higher standard than do those of Russia. tions that war between these nations may ensue. Russia and France are ailies, and it is stated that the latter nation has of late intimated in rather strong terms to her ally that she may be called upon to assist in repelling German aggression. With the ending of the Russo-Japanese war, Japan may be moved to seek an explanation from Germany regarding the latter's doings in the Shantung peninsula. Great Britain, as the ally of Japan (and as

the quasi-ally of France,) would not look with disfavor upon such a course. It may come to pass, therefore, in the not very remote future, that Russia, France, Japan and England may be united in holding German aggressions in check.
"he United States would remain vir-

tually neutral in such a combination. If we were enlisted at all, it would not be on the side of Germany. In the mean time, there is distinct

ground for hope that the peace conference soon to be held as our national capital will not be unsuccessful.

persons were skeptical as to its practical value, because they were skeptical as to the probable accuracy of weather predictions made in advance. In the beginning the number of weather stations was comparatively small, and the deductions of the bureau were put out in a modest way as "Probabilities." The accuracy of the profictions made by "Old Probs," as "Probabilities." The accuracy of the profictions made by "Old Probs," as the Weather Bureau was familiarly designated, was frequently called into question. But the facilities of the bureau were gradually increased, from the basis of an important industry in the weather from day to day began to take notice. As the service was extended it became increasingly accurate, and today it is universally accurate, and today it is universally

This may be a unpalatable truth, but it is none the less true. The navy needs better shooting much more than it needs more battleships. The appropriation for target practice, now \$1,000,000, should be tripled. Success in a guncrew should be well rewarded. A captain whose ship falls off in shooting should lose his command.

Navai battles are to be won in the future by shots that score at five miles, and the Japanese victory makes it plain that it is not to be the more numerous battleships but the best shooting at long range which will give victory.—[Philadelphia Press.

Crowding the Pols.

There does not seem to be any insuperable obstacle to locating the pole, and if there is not, the numerous failures during so many years must be largely due to accident. Such an unbroken series of accidents is, in itself, very remarkable, but not unprecedented. The time must come when these accidents will cease, and then all of the searchers may be successful. This may happen this year, but there appears to be more certainty of the discovery of the pole through the extension of civilization than by expedition specially fitted out for that pur-

KERN RIVER FIELD. Despite conditions, there is considerable drilling in prógress on different properties. The Sterling, which commenced extensive drilling some time ago, is now centering its development upon the southern forty acres of its land where no work has been done hitherto. The Federated Company is drilling four wells on the Globe lesse on the east half of section 30. A new well, No. 6, is also being sink on the Perseus. The Euclid and the Enterprise have also one well drilling and a rig up for another.

The storage capacity at the field is being rapidly filled up. The Associated's 1,000,000-barrel reservoir is being used for the storage of the independent oil over and above the amount marketed under contract, and it is now about half full.

After-Removal Sale

Matchless Money-Saving Opportunities

People who appreciate quality are our best customers. Years ago we set a certain standard—a high one; and nothing can induce us to lower it. But choice goods are not necessarily high-priced. Depends largely on the purchasing power of a dealer—and his willingness to divide profits with the public. This "After-removal" Sale is being conducted on the profit-sharing plan. Give us a chance to prove it.

officials named in the warrant see A. D. Schindler, general manager, and S. B. McLengan, superintendent of the line, and H. A. Tourville, motornan of the car.

The papers were not served yester-day, but it is expected that the per-sons named will appear in the Police Court today in response to the notifi-cations that will have been sent to

them.

The offense charged is that a freight car loaded with berries from Gardena was run through Third street on June 4, to Third street and Central avenue, where the city market is located.

In doing this, it is claimed that the electric railroad company violated Section 379 of the Penal Code, enacted Pebruary 14, 1872, which provides as follows:

ebruary 14, 1872, which provides as bilows:

"Anything which is injurious to ealth, or is indecent, or offensive to he senses, or an obstruction to the ree use of property, so as to interfere the comfortable enjoyment of life r property, by an entire community neighborhood, or by any considerable number of persons, or unlaw-silly obstructs the free passage or use, the customary manner, of any naviable fake, river, buy, stream, canal r basin, or any public park, square, treet or highway, is a public nuisance."

DIKE FOR YUMA PROJECT. of Interior Calls for Propo-Additional Work at the

Laguna Dam.

The project board of the United States Reclamation Service has recommended and the Secretary of the Interior has called for proposals for the construction of a dike as a part of the Irrigation and reclamation works at the Laguna dam, which is known as the Yuma project, This information is contained in a dispatch received yesterday from Washington.

Bids for the construction of the Laguna Dam were opened June 5, at the office of the Reclamation Service in Los Angeles, that of J. G. White & Co. of New York, 3797.650, being the lowest of the Rive submitted. The bids were transmitted to the Secretary of the Interior for his consideration.

Yesterday's advices from Washington state that the project board considers the construction of the flood waters of the Colorado River from the irrigable-lands in Yuma Valley, a result of the rains above that territory.

The Secretary of the Interior has advertised for proposals for the construction of about twelve miles of dike, involving the excavation of about 446,000

EVENTS IN LOCAL SOCIETY.

M. R.S. ALBERT CRUTCHER of No. 1257 West Adams street entertained more than a score of guests yesterday afternoon with a bridge whist party, in honor of Mrs. Frederick Gauze of Yokohama, Japan, who is visiting her sister, Mrs. Carl F. Adam of Orchard avenue.

The house was decked with a profusion of bright yellow tulip popples, effectively arranged in soft old brown baskets, with background of cool ferns. The hostese was assisted in entertaining by her sister, Mrs. Willoughby Rodman, and her mother, Mrs. Cliff Page. At the conclusion of the games, refreshments were served and prizes were awarded. The first prize, a handpainted fan, was captured by Mrs. Will A. Barker, and the second, also a prestyfan, was won by Mrs. R. H. Ingram while the consolation, a fancy silken

Little Viola Yorba, a pretty little eleven-year-old Mexican singer, made the hit of the evening. With her nine-year-old cousin, Ernest Martinez, she provided music, Mexican dances and songs that fairly caught the fancy of the crowd. In short order a hatful of small change was poured into the little maiden's lap. Then the pretty voice which had chirped the helodious Mexican airs began straining itself to the raucous notes -f "Alexander." But afterwards another hatful produced the more appropriate "La Paloma." Altogether the little singer reaped quite a harvest.

COUNTY JAIL ROMANCE.

The relation of the police of Los Angeles, is mixed up in a strange romance which was commenced in the County Jail here. Several months ago Hughes was arrested to Los Angeles, charged by Mrs. Mary & Ward, a wealthy woman of this fly, with obtaining money by false retenses, having over the telephone, oppersonated her attorney, Earl Rogers, and secured \$50 from her, on the retense that he could give her imporant information about a civil suit then seeding.

While in Jall he fell in with Rufino reno, under arrest on a charge of sault with a deadly weapon upon a rate miner. Moreno's wife and pretty ughter paid Moreno daily visits, and this way Hughes met the girl. Grim its and bars seem not to have intered with the courtship, which commod from the first meeting, for been Hughes's release last Monday he dobtained the girl's promise of art and hand, the marriage to take nee so soon as he was liberated.

Mrs. Moreno set to work assisting the it to prepare for the coming nupitals, dit soon became a matter of wide mment among that class, when peose who know Hughes informed the other that he had married a woman med Mrs. John Nightingale at Los ageles, and neither death or the direc courts had separated them. Hughes was not to be caught withta a clever explanation when the other three up to him his duplicity, a readily sprung the story that the ct was Mrs. Nightingale had cruelly ceived him, and that at the very me she was solemnly making her arrilage wows to him before a clergy-an at Los Angeles she was in fact married woman, and therefore the arrilage with ...im was void.

man at Los Angeles she was in fact a married woman, and therefore the marriage with ...m was void.

Mrs. Moreno was obstinate. The story sounded likely enough, but she insisted that Hughes must first have the marriage to the Nightingale woman annulled by the courts before he should marry her daughter. Hughes agreed, but according to Deputy Sheriff Belarde, brother of Mrs. Moreno, Hughes had Mrs. Moreno so completely under his power that he got her to have a marriage contract drawn, or an agreement that the daughter should marry him.

DEAD MAN IS DEMPSEY.

Coroner Pittman returned from the mountains this morning with the remains of J. H. Dempasy, the Los Angeles man who died in Holcomb Valley Monday evening of injuries sustained five days before, while prospecting, death being due to paralysis of the spine.

The evidence showed that Dempsey The evidence showed that Dempsey and a partner named Ryan were looking for gold along the mountains when the former slipped and sat down heavily on a rock. He was painfully injured, but managed to reach his tent, where he remained until his death. Monday he was almost wild with pain in the back of his neck, but nothing serious was thought of the trouble, and Ryan set off to look at a prospect.

During Ryan's absence a miner rained Tom Stewart tried to get Dempsey to go to his house nearby, but the latter refused, and Stewart returned to the house after a liniment. In his absence Ryan returned to Me tent and was morrified to find Dempsey dead, lying across his bed.

CONGDON-NICKEY.

The marriage of Walter N. Congdon and Miss Allie M. Nickey, both widely known throughout this city, was celebrated at 2 o'clock this morning at the home of the bride on the corner of Sixth and Bush streets. Rev. A. H. Hooker, pastor of the First Congregational Church, performed the ceremony, which was witnessed only by the immediate families of the contracting couple.

After a journey to the northern part of the State Mr. and Mrs. Congdon will be at home in this city. The bride is a daughter of Mr. and Mrs. F. P. Nickey and the groom is a son of Mr. and Mrs. J. R. Congdon of Cypress street, both families being among the earlier settlers of this community. The marriage of Walter N. Congdo

FIRE IN GROCERY.

The grocery store and contents on the corner of Washington and Custer streets, belonging to Frank Baker, were entirely destroyed by fire last night. The store was unocupled at the time, Mr. Baker having gone to his home a short distance away to supper. It is supposed that the flames started by the explosion of a kerosene lamp which was left burning in the building. When discovehed the fire had made such headway that the department could save almost nothing. The loss is estimated at \$1000, principally in groceries. Half the amount is covered by insurance.

Sucker-catchers Still Busy in Hot-air Camp.

SPECIAL CORRESPONDENCE OF THE TIMES.

GOLDFIELD (Nev.) June 11.—An-ther chapter has been added to the distory of the looting of the Goldfield history of the looting of the Goldfield Bank and Trust Company. Yesterday Attorney F. L. Burton and President J. B. Young of the defunct bank appeared before Justice of the Peace Bell for a preliminary examination on the charge of conspiracy to defraud the bank out of \$7000. The revelations at the trial were startling. It was shown that Burton, whose world possessions seem to consist of an unsavory reputation and a gail befitting his brazer countenance, was permitted to borrow money on his note without a semblance of security, even in the form of an in-

tion and a gail befitting his brazen countenance, was permitted to borrow money on his note without a semblance of security, even in the form of an indonser. It was shown that at the time of the bank's failure his account was overdrawn fio.500, and yet he loudly proclaims that his dealings with the bank were not open to the slightest suspicion. In support of his position, Boai, the cashier, testfied that it was a common practice among banking institutions to allow its customers to overdraw their accounts in this manner. At a meeting of the other banks of the Goldfield Bank and Trust Company, Boai stated that he had advanced to Burton 18000 on a check drawn by one Haie on John S. Cook & Co., upon the advice of President Young. Upon this particular circumstance the complaint charging conspiracy on the part of Young and Burton was based; but when Boal took the stand he absolutely denied that he had paid the check on the order of President Young, and stated that it was upon the advice of Director Davis. The check was dated May 23, and was presented for payment on May 12. Not a dollar did the maker of the check have in the bank, yet the Goldfield Bank and Trust Company cashed it with this knowledge in its possession.

Perhaps the fact that Young, Burton and Boal have sojourned together from Young to pay the check, it was impossible to prove that Burton's connection with the deal was criminal.

Young's preliminary hearing took place today. Not being able to prove himself anything more than an ordinary thief, he was held under fis.000 bonds to appear before the grand jury on a charge of embessiement.

A MENDACIOUS EDITOR.

Much criticism of The Times has been indulged in by the local press on account of an article appearing in this paper under date of May 31. The editor of the Sun waxes vile in a series of editorials denouncing The Times, and so incensed did he become by the of editorials denouncing The Times, and so incensed did he become by the aroma of his own billingsgate that he delivered himself of the most astounding statement of untruths that ever adorned the pages of a so-called newspaper. In keeping with other false-hoods in the article he states that there are ten stamp mills running in Goldfield, and that the capacity of the New Western Reduction Company's mill will soon have to be doubled to meet the demands upon it. As a matter of fact, the nill in question has not sufficient water to run its present complement of stamps, and beyond doing a little sampling has not attempted to engage in militing ore.

The mills at the Combination mine and the Gardner-Oddie mill: are the only ones found running in the district. What the editor of the Sun may be able to see when he works himself into one of his characteristic frenzies, may find a fitting place in a modern edition of the Arabian Nights, but has no place in the realm of fact.

The public is entitled to know that there is no work for the hundreds of miners who are flocking to the district, and that there are few business opportunities for the man of limited means in this town, where retrenchment is the order of the day and failures are of frequent occurrence. The

ment is the order of the day and failures are of frequent occurrence. The Nye & Esmeralda Supply Company made an assignment during the week, and competition is so strong among the remaining mercantile houses that a stranger would be foolish to come here with the view of engaging in business of that kind at this time.

THE BUSY FAKERS.

Let the mining man and the representative of capital come. Welcome i the man who comes here to invest in the surrounding mines with the inten-tion of developing them so they may prove a source of support to the camp: but as to the predatory individuals and concerns that are flocking here to in-corporate mining companies without reference to the character of the ground they acquire, but with the sole purpose of preying upon those who be-lieve their falsehoods and misrepresen-tations, it is a narrow and dishonest policy indeed that bids them come. A knocker in the local eye is too apt to be one who raises his voice against the injustice of inveigling the unwary motto is "Your money looks good to

Ethics of Smoking.

No one objects to the gentleman who is the nuisance. The "smart Aleck" who is regardless of the rights of the woman, into whose face he blows his smoke, should be denounced by all decent men, as our wives, daughters and mothers, when alone, have no defense against that hog. A woman gets into the smokers' seat because she is nervously hurried into the first seat that comes to her. If she sits next to a gentleman he will not have to ask anyone what he should do. If his smoke blows into her face. Any old kind of cheap perfume is nicer than an old pipe of cigarette smoke blown through a diseased nose. The non-smoker should not have to look out for the smoker. It is the smoker's place to see that he does not befoul the air that others breathe.—

OT SWINDLE ■ NEAR MONROVIA.

OLD, OLD GAME IS AGAIN BEING WORKED THERE.

Women Who Purchased Property on Fabled "Water Front" are Undeceived and Their Dreams of Rich Land Turn to Ashes—Soil Too Thin to Raise Any Kind of Vegetation.

MONROVIA. June 15.—Two poor women seeking recently-purchased property along a fabled water front in Monrovia, received a terrible shock at C. E. Slosson's office today, when they learned that Chicago Park, the beautiful location of their dreams, is only a dreary stretch of wash land over which San Gabriel River spreads at its flood in the rainy season. Full of enthusiasm over Mourovia, after an automobile trip through the orange groves, they went into the office for information regarding Chicago Park. When they learned that it was merely a gigantic swindle, they were nearly overcome with disappointment, one that was evidently a shock to long cherished dreams. MONROVIA, June 15 .- Two po

the soil is too thin to raise any kind of vegetation, and which is three miles from a corporation. Only one house has ever been built in this high-soundin. region, and that ong was deserted because the squatter could not make even potatoes grow. Yet the records of Los Angeles county show that six lots have been sold within a month, for prices ranging from \$1\$ to \$350.

The ground was platted in 1856-7 and prospectuses were sent East, which showed Chicago Park laying beside a broad stream down which steamers were wending their way. This was, of course. San Gabriel River, and in the fetching cut a wharf extending out from Chicago Park was shown. It was given the broadest circulation and cradence in the East and for years in quiries poured in to banks and local real estate man in regard to it.

Since that time the southern part of Monrovia has gone by the name of the water front. Which often puzzles visitors, as San Gabriel River is not noticeable, except at certain seasons. Activity in the sale of these lots means a rascal at work, according to the views of Monrovia people, and they regret that the location is given as South Monrovia. This leads strangers to believe it is a part of Monrovia and shares civic advantages.

Both men are well known to the police and have hard reputations, one of them recently received a severe thrashing at Oro Grande by a man whose sister they had tried to lure from home. A week ago the head of this band of procurers visited San Dimas, remaining about town for twenty-four hours and telling about twenty-four different stories. He tried to get the boys to carry a note to the Corken girls, but falled and, although he was known to be prowling around the Corken home, the brave father instead of coming out with his gun and ordering the man away, hed himself to his house and locked himself inside with his family and dogs, and refused to swear out, a warrant for the man's arrest.

Corken's daughters are respectively 14, 16 and 20 years of age. None of them would pass as good looking, while one of them unfortunately has only one eye.

That these men are engaged in the traffic of girls for immoral purposes is not doubted here, and the men of this town were prepared to protect Corken and his family, but Corken's conduct has been such a mystery to the people that they are much relieved now that the family has gone.

LONG BEACH, June 15 .- After many LONG BEACH, June 15.—After many trials and vicissitudes, the project of the \$500,000 hotel on the bluff at the foot of American avenue has been revived. The company has been reorganised, and, with a new set of officers and directors at the helm, seems now more of a certainty than ever before. The principal reason for this expectation is that the project is now absolutely in control of Long Beach men, among them those who are prominently identified with the prosperity of the

identified with the prosperity of the city.

The original plan was to issue stock and boads. Long Beach capital to the amount of \$100,000 was asked to start the building, but investigation showed that misrepresentations had been made and subscriptions announced did not even exist on paper. As a result the scheme was looked on as shaky, and a reorganization followed with the result that the old board of directors resigned and the following new board elected:

J. B. Heartwell, J. M. Parsell, A. M. Goodhue, L. F. Grigsby, H. M. E. Schroeter, C. J. Walker, J. V. Barton, Frank McCutchen and W. L. Porterfield.

The capital stock is \$500,000, and under the new plan agreed on every purchaser of bonds will be allotted stock

MRS COCHRAN DEAD.

Wife of the Vice-President of Con servative Life Passes Away in the Early Morning.

Mrs. Alice Maude Cochran, wife of George I. Cochran, vice-president of the Conservative Life Insurance Company, director in a number of impor-tant corporations and a financier well known all over this part of the State, died at 2:30 o'clock this morning at the family home, No. 2249 Harvard boule-

Mrs. Cochran had been ill for several weeks, but htr friends had not been informed that her condition was so serious that a fatal termination was feared. The news of her death will therefore come as a surprise and shock to hundreds of fritnds of the family. Mrs. Cochran was for years prominent in society, and was best known, per-haps, by reason of her numerous acts of charity. The arrangements for the ufneral have not been made.

BANK CLERKS MEET.

Los Angeles Chapter Discusses Meth ods of Clearinghouses and Law of Bank Checks.

About sixty members of the Los Angeles Chapter, American Institute of Bank Clerks, met last night in Picker-ing Hall, South Broadway, for their monthly discussion of matters pertain-ing to banking interests.

ing to banking interests.

A paper was read by John G. Mossin, vice-president of the American National Bank, and manager of the Los Angeles clearinghouse. His subject was "The Clearinghouse and its Methods."

In closing his paper Mr. Mossin said that Los Angeles ranks nineteenth in the list of ninety clearinghouses in the United States, and that while ten years ago the clearings showed a net amount

United States, and that while ten years ago the clearings showed a net amount of \$19,000,000, for 1904 the amount for Los Angeles was \$245,000,000.

F. J. Belcher, president of the chapter, presented a paper condensing the articles on "The Law of Bank Checks," which have been appearing in the Banking Law Journal. Both papers were followed by general discussions, and the evening closed with queries from the question box, which brought about discussion on many points of local banking interest.

The chapter will hold a social meeting in this hall on the evening of June 22. A musical programme will be given and refreshments will be served.

WOMEN'S NEGLECT

SUFFERINGTHESUREPENALTY

aith Thus Lost is Restored by Lydis Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of apirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, leucorrhosa.

These symptoms are but warnings that there is danger shead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydis E. Pinkham's Vegetable Compound.

Miss Kate McDonald, of Woodbridge, N. J., writes:

N. J., writes:

Dear Mrs. Pinkham:

"I think that a woman naturally dislikes to make her troubles known to the public, but restored health has meant so much to see that I cannot help from telling mins for the sake of other suffering women.

"For a long time I suffered untoid agony with a uterine trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydis B. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

If you are ill, don't hesitate to get a If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegeta-ble Compound at once, and write to Mrs Pinkham, Lynn. Mass., for special advice—it is free and always helpful.

DIXIE VETERANS FREEZE OUT FEDERAL OFFICIAL.

IBY THE ASSOCIATED PRESS-A.M.1 LOUISVILLE (Ky.) June 15 .- With determination to finish promptly the pusiness of the United Confederate Veterans' Association so that the old soldiers will have nothing to do but prepare for tomorrow's parade and continue to have a grand time, the old soldiers were present in greater num-bers when the convention was called to order today. The invocation was by Rev. James P. Smith of Richmond, Va.,

order today. The invocation was a property of the two surviving staff officers of "Stonewall" Jackson.

On the afternoon of September 1, 1864, a Michigan regiment, under the command of Henry R. Mixner, now a brigadler general, U. S. A., retired, stormed the Confederate fortifications at Jonesboro, Va., and captured the battery and Gen. D. C. Given, who was in charge. Today, in this city, these two veterans met again for the first time in forty-one years. The meeting could not have been more cordial or affecting had the men been brothers. The report of the historical committee, submitted by Gen. Evans of Georgia, as chairman, seeks to secure accurate history which is to be incorporated in the text books in Southern schools.

porated in the text books in Southern schools.

A call of the Resolutions Committee developed the presence of a Federal officer on that important body. He is Col. S. C. Russell, and he is accredited to Indian Territory. Comrade B. P. Pajdock of Furt Worth decline to sit in the same room with Col. Russell and in a response to a chorus of "Take him off." "take him off." Gen. Lee substituted Capt. J. J. Kendall of Indian Territory. Gen. Lee, however, took occasion to pay a compliment to Col. Russell and said he had some time ago written a splendid tribute to the Southern soldier.

TO BUILD BATTLE ABBEY.

The report of the Battle Abbey Com-nittee, of which Gen. Evans is chairhas in subscriptions \$206,000. The abbey fund is now considered in safe condi-tion and the building will be erected

at Richmond.

The report of the Jefferson Davis Monument Association of the United Daughters of the Confederacy showed that the committee had in the bank for the purpose of erecting the monument 165,000 and that the contract has been signed for unveiling the monument. In Richmond, June 3, 1907. The report was unanimously adopted.

After calling for the reports of various committees and receiving no response, Commander-in-Chief N. S. Tisdal of the United Sons of Confederate Veterans gave them a lecture on their lack of interest. W. L. Williams of Macon, Ga., said it was no wonder the Sons of Confederate Veterans as an organization was nearly dead and suggested that the Incoming commander-in-chief try to secure men who would take an interest in the affairs of the organization. "Unless this is done," Williams said, "we would do better to ally ourselves with the United Confederate Veterans and allow our organization. The report of the Jefferson Davis

Secretary Shaw hit the nail on the head when he told a meeting of business men at Topeka that there was no danger of this government becoming bankrupt. "Bankruptcy" is a word not lightly to be used. Unfortunately there is a disposition in some quarters to confuse a deficiency of revenue with a government default of payment. The condition of the treasury does not in the slightest degree warrant this confusion of terms. Our treasury has an available cash balance which is sufficient to more than take care of all demands and leave something handsome over. The credit of the United States was never better than it is at this moment.—[Boston Transcript.

Las Vegas has many more advantages in the beginning of her bareer than any of the cities mentioned possessed.—Fitz Mac, in Denver Post, June 5, 1905.

Investors in lots at the present prices will reap fortunes in the near future. We have nearly 500 lots, purchased from the Railroad Company at far below auction prices, and are prepared to sell them at a low figure and on such easy terms that anyone can afford to purchase. Now is the time to buy if you would reap the greatest profits.

The strong railroad which was the parent of Las Vegas, is bound by its own interests to sustain it in the feebleness of its youth and encourage and foster all its endeavors. The railroad will make it a winter sanatorium. It must. But that cannot be done in a day. The railroad itself is a new enterprise, just opened for through traffic, and it is bound to encourage the development of every enterprise that can make traffic to or from this point.
